

North America's Largest Consortium of Independently Owned Document Management Companies Met in Carefree Arizona

Phoenix, AZ – Dec 14, 2009 – North America's largest consortium of Independently Owned Document Management Companies had their last meeting for 2009. The Independent Information Management Dealers Association (IIMDA) Fall meeting was held in Carefree, Arizona. IIMDA has been meeting twice a year for the last 20 years to discuss relevant issues and resolutions for our industry.

"I wanted to express a very sincere thank you to all of our members that attended our fall meeting. I also want to thank the IIMDA Board and our Executive Director for all of their help to create a great venue and outstanding content for our membership. We are looking forward to our board meeting in February and our spring meeting for 2010," stated Ron Thompson Jr., President of IIMDA.

Other comments from IIMDA Members:

"The topics were relevant, the camaraderie was genuine and the information was timely".

"Just wanted to send a sincere thank you for all the work you did in putting together an informative and entertaining meeting in a wonderful part of the US..... the presentation on Monday was first class".

BMI Imaging Systems is proud to be an active member of the IIMDA group and we are looking forward to the Spring 2010 meeting. We also value the relationships we have formed over the last decade with other members of this organization. This allows us to share information and gather feedback on ideas relating to our industry.

About Independent Information Management Dealers Association (IIMDA):

Founded in 1984, IIMDA is a group of over 20 member-companies throughout the United States and Canada. IIMDA is the oldest and largest dealer group dedicated to

document management and its surrounding scanning, micrographic and data management technologies. The independent nature of IIMDA members allows them to determine the best solutions for each client's needs, regardless of the source of the solution. Locally owned and operated, IIMDA dealers bring an unbiased assessment of technology and services to their clients.

About BMI Imaging:

Since 1958, BMI Imaging Systems has been a leader in microfilm conversion, document imaging and document management solutions. BMI offers industry-leading scanning products from Canon and the ApplicationXtender document management product line from EMC. In addition, BMI has developed its own unique microform replacement software, Digital ReeL, which is available through resellers nationwide. Today, BMI staff consists of 80 employees, many who have been with BMI for decades. BMI converts an average of 3 million images per month and has an installed base of hundreds of content management solutions. BMI serves commercial and government agencies throughout the United States and has developed a customer list of more than 2,000 accounts. BMI is headquartered just outside San Francisco in Sunnyvale, California, with an additional production and sales facility in Sacramento, California.
